Jim, the cost of getting copies of the files released by Bork in response to the ACLU/ Carl Stern decision will be great if they come from Justice. I think they should be gone over by other than Carl and the ACLU lawyers, who will not be able to correlate completely. I also think there is the possibility that some of us may turn up by having spoken to certain audiences, etc. I've be particularly interested in going over any Minneapolis and New Orleans files of the very beginning, when I was hassled by baggage interception. And I was needling the Bureau then. I can ask Carl, who I've met. In fact, I think I first interested him in FOI and I knoew NBC's staff counsel in DC knew nothing about the law until I briefed him and loaned him materials. HW 12/7/73
